

CLAIM AMENDMENTS

Please replace the pending claims with the following listing of claims:

- 1-7. (Cancelled)
8. (Original) A vibration mount for machinery, said mount comprising:-
spaced metal mounting brackets, each mounting bracket being adhesively anchored to
a cured MD1 polyurethane cushioning material cast therebetween, said metal mounting
brackets having a bright corrosion resistant metal finish.
9. (Original) A vibration mount as claimed in claim 8 wherein said polyurethane
cushioning material is at least partially cross-linked.
10. (Original) A vibration mount as claimed in claim 8 wherein said polyurethane
cushioning material is comprised of a polyester based, MD1 terminated prepolymer reacted with a
low molecular weight polyol.
11. (Original) A vibration mount as claimed in claim 10 wherein said low molecular
weight polyol is a diol.
12. (Original) A vibration mount as claimed in claim 11 wherein said diol is an aromatic
diol or an aliphatic diol.

13. (Original) A vibration mount as claimed in claim 8 wherein said cured polyurethane cushioning material has a Shore A hardness in the range 75-90.

14. (Original) A vibration mount as claimed in claim 13 wherein said cured polyurethane cushioning has a Shore A hardness in the range 75-85.

15. (Original) A vibration mount as claimed in claim 14 wherein said cured 12 polyurethane cushioning has a Shore A hardness in the range 78-82.

16. (Original) A vibration mount as claimed in claim 8 wherein said cured polyurethane material is coloured.
